

ELIZABETH REGINA
Defender of the Faith
1952-2022

Yesterday saw the end of the second Elizabethan age and the 40th reign since the Norman Conquest in our long Island history.

For most of us we cannot remember life without Queen Elizabeth on the throne. She epitomised a life of duty and service both to the United Kingdom, the Commonwealth and indeed was a much admired and loved person throughout the World.

She will surely go down in history as one of our greatest Monarchs and we are privileged to have lived through her remarkable Reign and experienced such an exceptional person who played a huge and important part in all our lives. She dedicated her life to her Throne and to her people and gave us a sense of continuity and permanence.

We now look to the future and embrace a new Monarch in King Charles III.

GOD SAVE THE KING
